

Pupils exploring the rock pools of Skerries Beach on Beach Day 2016.

At the end of September our school celebrated a 'Harvest Day'. We used food which we had been growing in the garden to feed the whole school. Everyone from junior infants to sixth class got to sample some pasta with homegrown tomato sauce and some tasty apple crumble which was made using the apples from the school apple trees.

The 'Garden Gang' along with the help of some senior pupils recently picked and arranged herbs from the school garden into beautiful herb bouquets to be sold at the Winter Fair.
